ALEC's 40th Annual Meeting

Education Task Force Proposed Model Legislation for Consideration

The Great Schools Tax Credit Program Act (Scholarship Tax Credits)

Summary

The Great Schools Tax Credit Program authorizes a tax credit for individual and corporate contributions to organizations that provide educational scholarships to eligible students so they can attend qualifying public or private schools of their parents' choice.

Student Data Accessibility, Transparency, and Accountability Act

Summary

The Student Data Accessibility, Transparency, and Accountability Act would require the [State Board of Education/State Department of Education] to make publicly available an inventory and index of all data elements with definitions of individual student data fields currently in the statewide longitudinal data system. The [State Board of Education/State Department of Education] would be required to create a data security plan, ensuring compliance with federal and state data privacy laws and policies. Certain contracts would be required to include privacy and security provisions. A Chief Privacy Officer will be created within the State Department of Education whose primary mission includes ensuring department-wide compliance with all privacy laws and regulations. This bill adds new annual security and privacy reporting requirements to the Governor and Legislature.

Informed Student Document Bill

Summary

To aid students and their parents, the Informed Student Document Bill would publish the following outcomes by which a state's universities can be compared:

1. "Sticker-price" tuition relative to other institutions
2. Net price, after grants and scholarships, relative to other institutions
3. Retention rate relative to other institutions
4. Graduation rate relative to other institutions
5. Average student debt relative to other institutions
6. Loan repayment rates relative to other institutions
7. Employment potential relative to other institutions.
8. Average starting salaries for each academic major (gleaned from national employment surveys).

In addition to posting this information online, all potential applicants to a state college or university would receive this document in their application packet.

The Collegiate Learning Assessment Bill

Summary

This model legislation requires public colleges and universities to administer the Collegiate Learning Assessment (CLA) to all students during their freshman and senior years. The schools would also be required to publish the results, broken down by academic majors.

The bill focuses on transparency in student-learning outcomes as the first step toward raising public awareness about areas of academic strength and weakness in certain schools and majors. This would guide prospective students toward schools and majors shown to yield significant increases in learning.

The Honest Transcript Bill

Summary

The Honest Transcript Bill looks to correct grade inflation by requiring all public colleges and universities to include on student transcripts—alongside the individual grade the student received for each class—the average grade given by the professor for the entire class. This would help potential employers learn whether a given high grade-point average signifies superlative talent or merely that the student completed undemanding courses.

The bill does not seek to make universities *do* anything differently; it only asks them to make transparent for students, parents, and taxpayers *what* it is they are doing.

1 **1. Virtual Public Schools Act**

2 **Declaration.**

3 (A) The General Assembly hereby finds and declares that:

4 (1) Meeting the educational needs of children in our state's schools is of the greatest importance
5 to the future welfare of [state];

6 (2) Closing the achievement gap between high-performing students, including the gap between
7 minority and non-minority students, including the gap between minority and non-minority
8 students and between economically disadvantaged students and their more advantaged peers, is a
9 significant and present challenge; and

10 (3) Providing a broader range of educational options to parents and utilizing existing resources,
11 along with technology, may help students in our state improve their academic achievement;

12 (4) Many of our school districts currently lack the capacity to provide other public school choices
13 for students whose schools are low-performing.

14 (B) The General Assembly further finds and declares that virtual schools established in this article:

15 (1) Provide [state] families with an alternative choice to access additional educational resources
16 in an effort to improve academic achievement;

17 (2) Must be recognized as public schools and provided equitable treatment and resources as any
18 other public school in the state.

19 **Simple Version:**

20 “Nothing in this bill shall preclude the use of computer- and Internet-based instruction for students in a
21 virtual or remote setting.”

22 **Section 1. {Definitions.}**

23 (A) “Virtual school” shall mean an independent public school in which the school uses technology in
24 order to deliver a significant portion of instruction to its students via the Internet in a virtual or remote
25 setting.

26 (B) “Sponsor” shall mean the public school district, charter school board, or state department having a
27 fiduciary responsibility for the operation of the virtual school.

28 **Section 2. {Accountability Requirements.}**

29 (A) Sponsor. A virtual school shall be evaluated annually by its sponsor based on the following criteria:

30 (1) The extent to which the school demonstrates increases in student achievement according to
31 the goals of its authorizing contract and state academic standards.

32 (2) The accountability and viability of the virtual school, as demonstrated by its academic, fiscal,
33 and operational performance.

34 (B) Student and Family.

35 (1) Each student will have access to a sequential curriculum that meets or exceeds the state's
36 academic standards and that has an interactive program with significant online components.

37 (2) Each student will be required to have __ (900) hours of learning opportunities per academic
38 year, or a student has demonstrated mastery or completion of appropriate subject areas.

39 (3) Each student will be assessed regularly in Language Arts, Math, Science, and Social Studies.

40 (4) For each family with a student enrolled, the virtual school shall:

41 (a) provide instructional materials;

42 (b) ensure access to necessary technology such as a computer and printer; and

43 (c) ensure access to an Internet connection used for schoolwork.

44 (5) Virtual schools are prohibited from providing allotments to students or families to purchase
45 instructional programs or materials. Nothing in this clause shall prohibit virtual schools from
46 reimbursing families for costs associated with their Internet connection for use in the virtual
47 school program.

48 (3) Teacher. Each teacher shall be qualified to teach in the State of [state] under existing law.

49 (4) Offices and Facilities. A virtual school shall maintain an administrative office within the state in
50 which its sponsor is located, which shall be considered its principal place of business.

51 (5) Open Enrollment. Any student who meets state residency requirements may enroll in a virtual school.

52 **Endnotes**

53
54 1. "Virtual public schools" is a term used in many states to refer to these kinds of schools. Other terms
55 include distance-learning schools, cyber-schools, online-learning schools, etc. The authors recommend
56 that legislators choose the term that best serves the purposes of the legislation in their state.

57
58 *Adopted by the ALEC Education Task Force at the States & Nation Policy Summit December 4, 2004.*

59 *Approved by the ALEC Legislative Board of Directors January, 2005.*

1 **2. The College Funding Accountability Act**

2 *Summary*

5 The College Funding Accountability Act would require any college or university that accepts
6 state funding to undergo an outside financial audit if a budget increase or tuition increase request
7 is higher than the formula listed below.

8 *Model Legislation*

9 **{Title, enacting clause, etc.}**

10 **Section 1. {Title}** This Act may be cited as the College Funding Accountability Act.

11 **Section 2. {Definitions}**

12 (A) “College or University” means any school of secondary education that receives financial
13 support from the state.

14 (B) “Cost of Living” means the Consumer Price Index (all items) for the United States of
15 America, or any comparable index, as computed by the Bureau of Labor Statistics of the
16 Department of Commerce of the United States for a 12 month period of time.

17 (C) “Population” means the number of people residing in the state, excluding armed forces
18 stationed overseas, as determined by the United States Bureau of the Census.

19 **Section 3. {The Scope of the Act}**

20 (A) Each college or university that requests an appropriation from the state that exceeds monies
21 received in the prior fiscal year, except for allowances for cost-of-living and population, must
22 submit to an outside financial audit to determine if the additional increase in funding is both
23 necessary and prudent to meet the financial needs of the college or university.

24 (B) Each college or university that requests authorization for a tuition increase more than monies
25 received in the prior fiscal year, except for allowances for cost-of-living and population, must
26 submit to an outside financial audit to determine if the additional increase in funding is both
27 necessary and prudent to meet the financial needs of the college or university.

28 (C) Responsibility for the cost of the outside audit will fall to the legislature.

29 **Section 4. {Emergency clause}** The limitations imposed by Section 3 may be exceeded upon the
30 declaration of an emergency by the governor and upon a two-thirds vote of all members elected to
31 each House of the legislature concurring therein. The limitation may be exceeded only for the
32 year(s) in which the emergency is declared.

33 **Section 5. {Severability clause}**

34 **Section 6. {Repeater clause}**

50 **Section 7. {Effective date}**

DRAFT

1 **3. Resolution Calling for Greater Productivity in American Higher Education**

2 ***Summary***

3 The [state] Legislature recognizes the need to increase and reward college completion rates while
4 promoting efficiency and cost-effectiveness at colleges and universities and recognizing alternative,
5 innovative forms of postsecondary education, including community colleges and the lessons of for-profit
6 models.

7 ***Model Resolution***

8 **WHEREAS**, global trends signal the need for transformational change in United States higher education
9 to ensure adequate numbers of college graduates are prepared to contribute to the nation's economic,
10 political, and social well-being; and

11 **WHEREAS**, the United States devotes a greater share (2.9 percent) of its Gross Domestic Product than
12 any other industrialized nation to higher education but ranks third among these nations in the proportion
13 of its population with associate's degrees or higher; and

14 **WHEREAS**, to restore U.S. leadership in degree attainment, the United States must reverse a trend that
15 has the nation in a four-way tie for 10th for the percentage of its population between ages 25 and 34 with
16 a college degree; and

17 **WHEREAS**, reversing this trend and increasing the proportion of Americans with high-quality
18 postsecondary degrees or credentials with existing funding will require a rapid movement toward efficient
19 and cost-effective higher education; and

20 **WHEREAS**, room for improvement exists because the United States spends nearly twice as much per
21 student in public and private resources as the average amount spent by other industrialized countries; and

22 **WHEREAS**, the United States ranks second internationally in the proportion of its population with
23 bachelor's degrees or higher for those ages 25 to 64, but ranks eighth among nations for those with
24 associate's degrees or less, a ranking which has declined in recent decades; and

25 **WHEREAS**, countries that have reached the highest overall attainment rates have tended to rely on
26 associate's degrees and certificate programs to achieve much of their growth, allowing these countries to
27 develop human potential at the least expense; and

28 **WHEREAS**, U.S. degree completion rates at community colleges and four-year institutions are below
29 international averages, creating a high "attrition rate" that, if left unaddressed, could prevent the United
30 States from improving its position internationally even if the country were to improve its ratio of
31 associate's to bachelor's degrees; and

32 **WHEREAS**, without substantial policy changes, the United States will become less competitive globally
33 because many other countries are doing a better job of providing opportunity for mobility for their
34 secondary school graduates; and

47 **THEREFORE, BE IT RESOLVED** that it is the sense of the Legislature of the State of [state] that the
48 state should:

49
50 **1. Increase and Reward Completion.** The Legislature should begin setting aside significant portions of
51 its higher education budget to reward institutions for students who complete courses and graduate in
52 greater numbers at lower per-unit expense, such as through reducing time to degree, without diminishing
53 quality.

54
55 **2. Generate and Reinvest Savings.** State officials should ensure efficient and cost-effective academic
56 and administrative approaches are widely embraced and disseminated, and that cost savings are used to
57 serve more undergraduates. Better coordination of tuition, appropriations, and financial-aid policies;
58 efforts to limit the number of “wasted credits” that receive public subsidies; more efficient use of campus
59 space and authorization of fewer building projects; and the outsourcing of non-core operations are all
60 necessary steps to make the best use of available dollars.

61
62 **3. Educate and Train in Affordable Ways.** State officials should recognize the value of for-profit
63 providers and community colleges, which are primarily open-access systems that serve students at the
64 least expense. State officials also should formally recognize higher education is a prime candidate for
65 innovation, including entirely new ways of delivering degree programs cost-effectively. Whether public
66 or private, nonprofit or for-profit, two- or four-year, higher education institutions absolutely must become
67 more nimble, efficient, and responsive to the needs of students and American society.

68
69 **4. Establish Measures to Ensure Higher Education is Meeting the Needs of Students, Businesses,
70 and Other Stakeholders.**

71
72 *Adopted by the ALEC Education Task Force at the 36th Annual Meeting, July 16, 2009.*

73 *Approved by the ALEC Legislative Board of Directors August, 2009.*

1 **4. Lifelong Learning Accounts Act**

2 ***Summary***

3 The Lifelong Learning Accounts Act would provide for the creation, administration, and operation of the
4 Lifelong Learning Accounts (LiLAs) program. Under this program, participating employers match
5 employee contributions into a LiLA, up to an established cap. Third parties are encouraged to match
6 contributions.

51 **Section 5. {Effective Date}** This Act takes effect upon becoming law.

52 *Endnotes*

53 1. Elected officials in one state (IN) have introduced and passed legislation to create a pilot study. Indiana
54 Representative Tim Harris introduced and passed HB1005 in 2005. This bill provided \$50,000 for the
55 Department of Workforce Development (DWD) to determine the feasibility of a statewide LiLA program.
56 It also required DWD to report its findings to the Indiana Legislative Council.

57 2. Elected officials and agencies in four states (HI, IA, MN, and OK) have introduced tax credit bills.
58 Hawaii State Representative Cindy Evans introduced HB916 in 2007. This bill sought to give employers
59 a non-refundable tax credit of up to \$500, which would be equal to the amount contributed on behalf of
60 employees. It also proposed a refundable tax credit of up to \$500 for workers, which was not to exceed
61 the amount annually contributed to their LiLA. The bill sought funding for technical assistance,
62 evaluation, implementation and offsets for low-income workers. Hawaii Governor Linda Lingle
63 incorporated HB916 into her Hawaiian Innovation and Sustainability Initiative, which was introduced in
64 the state legislature as HB1280 and SB1366. Iowa Governor Chet Culver introduced HSB754 and
65 SSB3253 in 2007. These bills sought to create a statewide LiLA program that allowed employers and
66 employees to claim a refundable tax credit of up to \$500 per year. Those refundable credits were equal to
67 50 percent of their contributions. Minnesota State Representative Erik Paulsen introduced HF2779 in

68 2007. This bill sought to provide employers with a non-refundable tax credit of up to \$500, which was
69 equal to the amount contributed on behalf of their employees. It also proposed that workers receive a
70 refundable tax credit of up to \$500 per year, which would be equal to 50 percent of their annual
71 contribution. The bill sought to levy a tax of up to 25 percent on any nonqualified withdrawals that were
72 made by employees. Oklahoma State Senator Kathleen Wilcoxson introduced SB927 in 2005. This bill
73 sought to provide a corporate income tax credit for LiLA contributions made by employers. The yearly
74 employer tax credit would be capped at \$500 per employee and could not exceed \$50,000 over the life of
75 the program. Employees were allowed to treat LiLA contributions as non-taxable income.

76 3. Elected officials in two states (IL and IN) have introduced legislation that sought to provide state
77 matching funds. Of the two, Illinois has passed a bill that provides matching funds for LiLAs. Illinois
78 Senator Don Harmon introduced and passed SB2931 in 2006. This bill provided \$400,000 in state
79 matching funds to administer a statewide LiLA program in the health-care sector. It also provided funding
80 for support services, such as education and career advising. Contributions by individuals and their
81 employers are matched at a rate of 2:1 up to \$500. Indiana Representative Tim Harris introduced HB1173
82 in 2006. The bill sought \$300,000 in state funds to administer a LiLA Grant Program. This program
83 proposed that individual workers receive \$500 per year in matching funds if they paid any part of their
84 own educational expenses.

85 4. States interested in developing a Lifelong Learning Accounts program within existing resources might
86 consider the model used in Maine. That state's Lifelong Learning Accounts program, launched in 2005, is
87 coordinated by its state Department of Labor, which uses its existing Career Center staff and offices to do
88 outreach to employers and employees. Additional program support is provided by the Maine Centers for
89 Women, Work and Community, which assists employees with their education planning. The Lifelong
90 Learning Accounts themselves are established through the state's existing Section 529 college savings
91 program, known as NextGen, which is administered by the Finance Authority of Maine, and which
92 includes a matching contribution for low- and moderate-income workers. This model, because it takes
93 advantage of existing state programs, minimizes the need for additional state resources.

94 More information on Maine's program can be found at
95 http://www.famemaine.com/NextGen/pdf/LiLA_Program_Guidelines.pdf

96 Additional Note:

97 Legislators may want to specify how many employees the program will serve (if not an unlimited
98 amount); encourage the participation in the program of lower-income and lower-skilled workers; and
99 implement the program in diverse geographic and economic areas.

1 **5. The Full Faith and Credit for Properly Constructed Individualized**
2 **Education Plans Act**

3 ***Summary***

4
5 Under the Individuals with Disabilities Education Act (IDEA), all students are entitled to a free and
6 appropriate public education, and school districts are required to provide services in accordance with an
7 individualized education plan (IEP) that outlines the particular educational needs and appropriate services
8 for each child.

9
10 Unlike most areas of education law, IDEA creates a private right of action that enables parents to enforce
11 their rights under a child's individualized education plan to ensure that appropriate services are provided
12 by the district, and state and that if a district is unable to provide appropriate services, funds are made
13 available for the child to obtain the services from an outside-the-district provider.

14
15 Although an IEP is a federally mandated document, it is not currently a "portable" document (*i.e.*,
16 recognized from state-to-state, or even from district-to-district within a state). As a result, a student's IEP
17 must often be redrafted when a family moves, triggering a lengthy process that often:

- 18
19 - jeopardizes students' rights to appropriate services under the law;
20 - impedes mobility of an entire family in search of economic or other opportunity (*e.g.*, job
21 transfer); and
22 - triggers significant administrative costs for states and local governments, as costly IEP processes
23 are replicated to address the capabilities of the district, rather than the needs of the child.

24
25 Ensuring IEP portability by requiring that every district within a state grants "full faith and credit" to a
26 properly constructed IEP in another district within that state will ensure that families with special needs
27 children are able to enjoy the same freedom and opportunity of mobility, without jeopardizing the
28 educational options available to their children or creating costly administrative costs for school districts
29 and taxpayers.

- 30
31 - The recognition of services required under IEP constructed in another district would in no way
32 restrict the rights of parents to request a new evaluation pursuant to state and federal law.
33 - The Full Faith and Credit IEP Act would not curtail the rights of a district that receives a new
34 student with an IEP to challenge the validity of an IEP that may have been improperly
35 constructed by the referring district.
36 - The receiving district must, however, recognize and honor the individualized education plan
37 described in the existing IEP while the validity of the IEP or nature of handicapping conditions
38 and required services are being evaluated.
39 - States that have enacted the "Full Faith and Credit IEP Act" could, in turn, enter into interstate
40 compacts, or agreements, to honor IEPs prepared in other states; thereby expanding freedom and
41 mobility for families of special needs children beyond state borders.¹

1 **8. Next Generation Charter Schools Act**

2 ***Summary***

3 The State of [state] recognizes establishment of charter schools as necessary to improving the
4 opportunities of all families to choose the public school that meets the needs of their children, and
5 believes that charter schools serve a distinct purpose in supporting innovations and best practices that can
6 be adopted among all public schools. Further, the State of [state] recognizes that there must be a variety of
7 public institutions that can authorize the establishment of charter schools as defined by law, and
8 recognizes that independent but publicly accountable multiple authorizing authorities, such as
9 independent state commissions or universities, contribute to the health and growth of strong public charter
10 schools. Therefore, the purpose of this act is to establish that existing (or new) public entities may be
11 created to approve and monitor charter schools in addition to public school district boards. This act also
12 removes procedural and funding barriers to charter school success.

ii. States may use one or several of the options provided for in Section 4. As of July 2007, seven (7) states authorize the administration of a public university to take on chartering authority, separate from any of the specific departments representing a discipline. In this case, the individual campuses of a state university, for example, may open an office that is subsidized by state start up grants and/or pupil enrollment fees. Other states have independent charter school Boards or commissions that are established, and some have a combination of the above. In states where the political environment is hostile, university authorizers may be a preferable route over a Board which is appointed by the Governor and state legislative leaders. Having additional authorizers (both Boards and universities) might help alleviate any negative political influences as there will be other alternatives for applicants and therefore less power condenses in the hands of one authorizer.

197 ⁱⁱⁱ. In some states, there is a perceived constitutional barrier to allowing an entity other than a school
198 district or the state board of education to authorize public schools. States with multiple charter authorizers
199 have established case law that can be useful for policy-makers in establishing the constitutionality of
200 multiple charter school authorizers.

Requests from ALEC members for policy statements, model legislation and educational activities shall be directed by the Executive Director to the appropriate Task Force, or the Legislative Board of Directors if the issue does not fall within the **jurisdiction** of any Task Force. The appropriate Public and Private Sector Task Force Co-Chairs determine the agenda for each Task Force meeting, and the meetings will be called and conducted in accordance with these Operating Procedures.

The Director of Policy with the consent of the Executive Director assigns a model bill or resolution to the most appropriate Task Force based on Task Force content and prior jurisdictional history 35 days before a Task Force Meeting. All Task Force Co-Chairs will be provided an email or fax summary of all **model bills and resolutions 35 days before** the Task Force meeting

If both the Co-Chairs of a Task Force are in agreement that they should have jurisdiction on model legislation or a resolution, the legislation or resolution will be considered by the Task Force. If the other Task Force Co-Chairs believe they should have jurisdiction or if the author of the model bill or resolution does not agree on the jurisdictional assignment of the bill, they will have **10 days after the 35-day mailer deadline** to submit in writing or by electronic appeal to the Director of Policy their intent to challenge the jurisdiction assignment. The bill or model resolution is still eligible to be heard in whatever Task Force it is deemed to be assigned to as if submitted to the correct Task Force for the 35-day mailer. working group, subcommittee, or simply meet consecutively or concurrently if necessary.

If the Task Force co-chairs both agree to waive jurisdiction, they may do so as long as another Task Force still has jurisdiction.

The National Chair and the Private Enterprise Advisory Council Chair will rely upon the Task Force Board Committee Co-Chairs for advice and recommendations on model legislation or resolutions when no jurisdiction in any of the existing Task Forces in operation can be found. The Task Force Board Committee Co-Chairs will work with the Executive Director and the Director of Policy to identify public and private sector Task Force members (not alternates) from the existing Task Forces should their expertise be of assistance to the Task Force Board Committee in reaching a determination and recommendation for approval by the National Chair and the Private Enterprise Advisory Council Chair.
